

CROMPACK 5 RACK REFLECTORS

- High efficiency parabolic reflector
- Anodised finish for long service life
- Low glare for warehouse operatives
- Twin lamp option for high open area lighting

Warehouse racking aisles often present a lighting problem, balancing the need for illumination at all levels of the rack face with minimised glare to operatives. Crompack rack lighting reflectors have a precision designed optical assembly, concentrating the light flux down in a narrow beam, ensuring lower rack faces and floor are correctly illuminated. At the same time, the semi-specular reflector material gently disperses light uniformly on the upper rack faces and significantly reduces glare for truck operatives. A twin lamp option provides a practicable option for medium to high open area lighting.

WHERE TO USE CROMPACK 5 RACK REFLECTORS

- Warehouse racking aisles
- Medium to high ceiling industrial units
- Loading bays

IP20

MATERIALS

- Reflector - High reflectivity, semi-specular anodised aluminium
- Clips & brackets - zinc plated steel

INSTALLATION NOTES

- Reflectors attached quickly via bracket with keyhole slots
- Can be continuously mounted
- Easy to clean, high quality reflector material

DIMENSIONS

Lamp Rating	L (mm)	W (mm)	D (mm)
1 x 58W	1538	266	193
2 x 58W	1538	276	160
1 x 70W	1802	266	193
2 x 70W	1802	276	160

CATALOGUE NUMBERS

Luminaire Lamp Rating	Cat. No.	Weight (kg)
1 x 58W	RLR51B	1.70
2 x 58W	RLR52B	1.73
1 x 70W	RLR61B	1.77
2 x 70W	RLR62B	1.80

SPECIFICATION

To specify state: Rack lighting reflector in high purity, high reflectance, semi-specular anodised aluminium, as Crompton Crompack 5 RLR range, part no. _____
